## I . DECISION-MAKING PROCESS OF THE PROFIT DISTRIBUTION PLAN

Figure 1 consists of two panels, A and B, showing the evolution of a vortex lattice. Panel A shows a lattice of vortices (black dots) and antivortices (white dots) on a grid. Panel B shows the same lattice after a transformation, with vortices and antivortices now represented by different symbols (black and white triangles) and some vortices marked with an 'X'.

## FORMATION OF THE SHAREHOLDERS' RETURN PLAN
