溫

The Company has been in active communication with the CSRC regarding the full circulation of Shares since December 2025, and originally expected that the CSRC would complete the relevant filing for the Full Circulation of Shares within March 2026. However, according to further communication between the Company and the CSRC recently, the CSRC indicated that, due to a significant increase in its workload during the recent period, it is currently unable to provide a clear timeline for the completion of the relevant filing for the full circulation of Shares.

On May 27, 2026, the CSRC sent a draft filing notice in respect of the Full Circulation of Shares to the Company for its verification.

The Company will continue to maintain close communication with the CSRC regarding the above matter, and will make further announcement(s) in relation to any material progress as and when appropriate in accordance with the Listing Rules. Should the filing in relation to the Full Circulation of Shares has not been completed before August 2026, the Company will consider discussion with substantial shareholders, directors and other non-public shareholders of the Company for an arrangement, by which they can dispose of a part of their H Shares to independent third parties in accordance with relevant laws, regulations and the Listing Rules (the “Alternative Arrangement”), in order to restore the public float of the Company. As of the date of this announcement, the Alternative Arrangement is still at the stage of preliminary consideration and assessment, and no binding agreement has been entered into. The Company will continue to consider the Full Circulation of Shares as the first choice, and will implement the Alternative Arrangement only when necessary.

The Company expects that the Minimum Prescribed Percentage under the Listing Rules will be restored by September 2026 at the latest.

BUSINESS OPERATIONS

As of the date of this announcement, the Company and its subsidiaries have continued their normal business operations.

PUBLIC FLOAT STATUS AND OWNERSHIP COMPOSITION OF THE H SHARES OF THE COMPANY
